

### **HCM Costing Module Upgrade**

We will be applying an upgrade to the HCM Costing Module beginning Monday October 4, 2021 at 5:00 pm. All users are requested to be logged off by this time. It is anticipated that access will be reinstated at 1:00 pm on Tuesday October 5, 2021.

This upgrade will allow departments to submit costing corrections for graduate assistant stipends in the costing module rather than with an HCM funding form. Only the costing for stipends paid this fiscal year (since July 1, 2021) will be displayed and available for corrections. If an allowable correction for a prior fiscal year is needed it will still need to be submitted via an HCM funding form. We are very excited about this enhancement and hope that departments find it extremely useful.
